A1

Atlas One Solutions

One relationship for your entire back office.

Payroll · HR · Benefits · Workers' Comp · Bookkeeping · Technology · Consulting — one point of contact, and one call that solves everything.

Prepared for [Prospect / Company]

David Taylor · Founder · 380-225-5217 · David@AtlasOneSolutions.com

You're running a business — not a back office.

But the back office runs you anyway.

1

10–20 vendors

Payroll here, benefits there, comp somewhere else, books with a fourth — none of them talking to each other.

2

Nobody owns the seams

The gaps between vendors are where money leaks and compliance risk hides. No one is watching them.

3

It all lands on you

Every question, every renewal, every problem routes back to the owner. That's time you can't get back.

Everything Atlas One does for you

Six divisions · one relationship

Workforce, Payroll & HR

Payroll, HR, and compliance handled — so you get back to the work only you can do.

Benefits & Retirement

Benefits that attract and keep good people, at a size you couldn't reach alone.

Financial Services

Clean books and CFO-level insight — without a CFO salary.

Risk & Insurance

Stop overpaying for coverage you don't understand, and close the gaps.

Technology & Operations

Software and AI assistants doing the busywork you'd otherwise hire for.

Business Consulting

A partner who's already run the numbers on your next decision.

How it works

Vendor-neutral, and the review costs you nothing — I'm paid by the vendors, not by you.

01

We audit — free

I review what you pay and where the gaps are. The audit, the comparison, and the ROI report cost you nothing.

02

You choose

I present two to four options side by side with honest trade-offs. No steering, no oversell. You decide.

03

We coordinate

I handle the transition, the billing, and the ongoing support — and you get one number to call.

A sample number: 25-employee company

An illustrative first year for a 25-person company. Your Audit replaces every figure here with your own, net of my fee; if your number is small, I say so.

$18,400	22 hrs / mo	3 gaps	$4,788
found across payroll, benefits, comp and software overlap (sample)	handed back to the owner and the office manager (sample)	closed: classification, handbook, filings (sample)	Professional membership for the year, shown, never hidden

= about $13,600 net in year one, plus the hours. Yours comes from the Audit.

Why owners trust me with all of it

✓

Balanced to the penny

A client's payroll ledger reconciled exactly — and 5 hand-entry errors caught before they hit a paycheck.

✓

Caught a $2,198 error

Found a competitor's quote overstating a client's spend by $2,198 a year, in a single line.

✓

Licensed in all 50 states

A licensed insurance agent and vendor-neutral advisor — I answer to you, not a carrier.

Simple membership. Cancel the vendor chaos.

Most owners land in Professional or Enterprise. Your savings usually cover the membership many times over.

Essential

$99/mo

Software + self-service tools. Your on-ramp.

Professional

$399/mo

+ concierge support, HR & compliance docs, quarterly review.

Enterprise

$999/mo

+ dedicated point of contact, priority, full coordination.

Concierge

$1,900/mo

Everything + AI email & task assistants, same-day.

Setup fees are one time and variable. Essential has none.

Your path forward

1

This week

A free audit — you share what you've got, I find what's leaking.

2

Next

Your options side by side, with one combined number, net of fees.

3

Then

We switch on what you choose and I take the coordination off your plate.

The next step is fifteen minutes.

No obligation, no cost, no pressure — just a straight read on what's worth doing.

A1

One Call Solves Everything.

When you're ready to make the whole back office one relationship, I'm one call away.
